DRUM HEATER FOR PLASTIC DRUMS - HISD

ADVANTAGES

The drum heater for plastic drums mod. HISD ideal for reducing the viscosity of materials such as soap, grease, resins, paints that must be easily pumped or vacuumed.
Four models are available for 25L, 50L, 105L drums and for the most common 200L ones. All the models proposed have internal thermal insulation which increases thermal efficiency.

CONSTRUCTION

Produced with a fabric of excellent quality and extremely resistant, the heater incorporates a capillary thermostat 0-40 °C or 0-90 °C which allows excellent temperature control.
The HISD drum warmer is supplied with a simple and effective fastening system with traction belts for optimal installation.

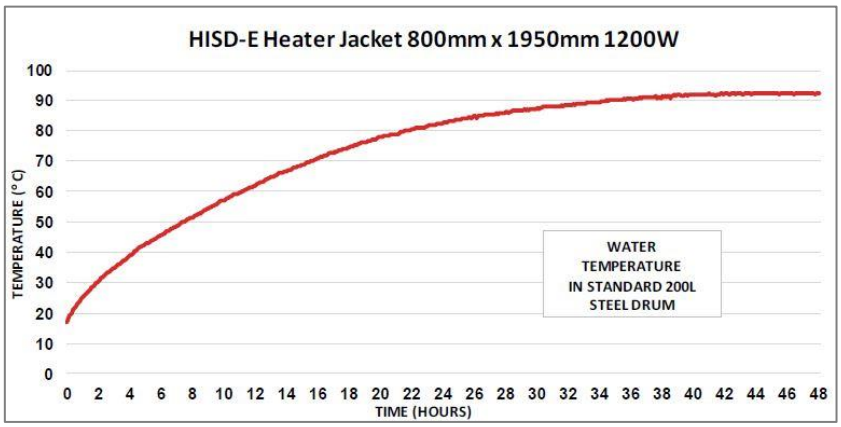

CHARACTERISTICS

PLUS

- Teflon / polyester insulation
- Double insulated construction
- Capillary thermostat 0-40°C or 0-90°C
- Standard sizes: 25L, 50L, 105L, 200L
- Customized dimensions on request
- With thermal insulation
- Adjustable with traction belts
- Easy to install and fit
- Supplied with 4Mt H07RN-F power cable

TECHNICAL DATA

- Supply voltage: 110V or 230V
- Degree of protection IP40
- 25L (Drum Ø 277-315 mm) 400x1020mm 200W
- 50L (Drum Ø 350-388 mm) 460x1250mm 250W
- 105L (Drum Ø 470-505 mm) 370x1650mm 400W
- 200L (Drum Ø 573-611 mm) 450x1950mm 450W
- 200L (Drum Ø 573-611 mm) 800x1950mm 1200W
